JOURNEY TO THE 'SEA OF STARS'

4-6 hours

Starts from USD 2500++ per four persons

From November to February*

Embark on a journey to Vadhoor Island, one of the best spots to witness the spectacular 'Sea of Stars' phenomenon, an extraordinary sight to behold.

When the sun goes down on Vadhoor Island, the sea waves lapping the shore light up like a shimmering field of blue dots, giving the sea the appearance of a starlit night sky. This incredible phenomenon occurs during these months due to the growth of phytoplankton, or aquatic creatures that glow in the dark. You can stir up the water, and if the plankton is present, it will splash around in the gorgeous blue light, creating a mesmerizing sight.
